ANNIVERSARY

Eighty years of All in the Family for the Campis

Wall dental practice marks major milestone

By Gina Columbus
@ginacolumbusapp

All in the Family Dental Care is certainly doing it all.

The third-generation family practice in Wall, which includes head doctors and brothers Joseph G. Campi, DMD, and Jack G. Campi III, DMD, has been in business for more than 80 years.

"It all starts with service to the patients, and customer service is a premium in our office," says Joseph Campi. "And we take pride in that, that's how we stay around."

The practice provides family dentistry, children's dentistry and cosmetic dentistry, including dental implants, laser dentistry, Invisalign, dental implants, clear braces, air abrasion, porcelain veneers, teeth whitening, tooth-colored fillings, dental bridges, dental crowns, gum disease treatment, night guard therapy and root canal therapy.

All in the Family Dental, 2041 Route 35, celebrated 80 years in business in 2013. It was founded in Asbury Park in 1933, and relocated to the Wall location in 1972.

The secrets to success? Advancing in new technology and providing a relaxed, welcoming environment for patients, Joseph Campi says.

"We really make our patients comfortable, make enjoyable visits for

them," he says. "And with the technology and service we provide, they're able to get quality dental work done in an enjoyable atmosphere."

Jack Campi adds that the strong family ties can also be contributed to the

business' longevity.

"Between my grandfather and my uncle, and me and my brother, there's always been Dr. Campi working on you," says Jack Campi, adding he loves working alongside his brother. "Blood's

heavily involved in community efforts, such as local food drives and educating about clinical health in schools. Recently, they were nominated by Moms Rock Events for the ALS Ice Bucket Challenge. The practice accepted the challenge, and also donated to the ALS Association.

In turn, the practice nominated Bosonac Orthodontics of Brick, Dr. Paul A. Galante, DDS, and Shore Points Oral Surgery of Brick, and Condon's Baseball of Manasquan.

"It's important to us — we practice where we live, and we enjoy helping the community organizations," says Joseph Campi. "We try to focus our efforts on something having to do with health or safety or education."

For more information on All in the Family Dental Care, call 732-449-2228 or visit www.campidental.com.

thick. You trust who you work with; there's nobody I trust more than him. Couple that with a staff — most of them have been here a very long time. We've seen the maternity leaves, it's a family. We know their kids from the time they were born and now they're going to college. You see families where 5 and now they're

turning into grandparents, it also adds to your credibility."

Their advanced technology includes laser dentistry with Diode Laser/CO₂/Nd YAG Laser, and E4D, which is a technology able to give same day in-office permanent porcelain restorations.

"E4D, it's been absolutely sensational," says Jack Campi.

The practice is also

HEALTH CALENDAR

CANCER SERVICES

A Clinical Study in Frontotemporal Dementia (Pick's disease)

Do you have frontotemporal dementia (FTD, or Pick's disease), or care for someone who does? If so, you may be interested in learning more about the first global trial to be conducted for people living with FTD/Pick's disease.

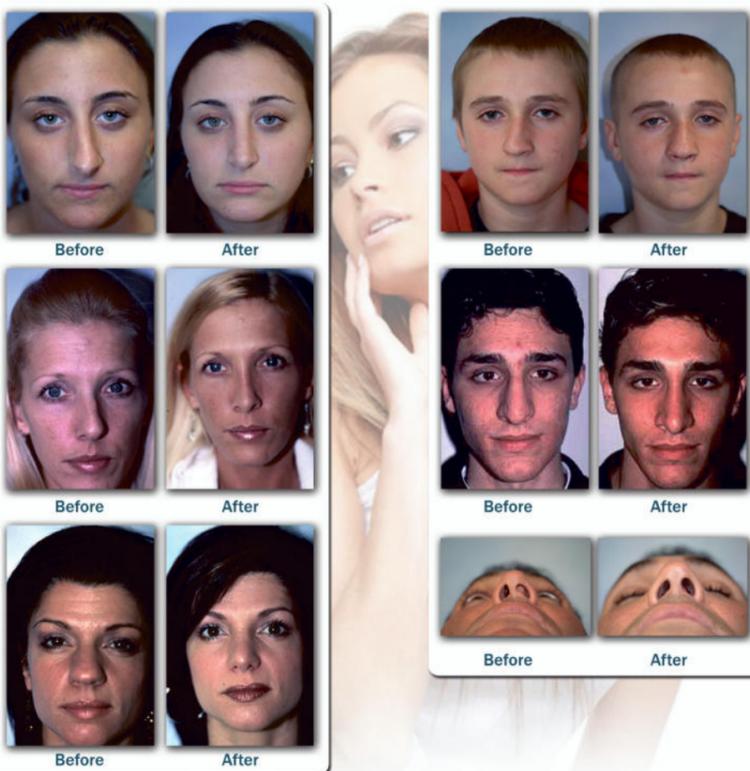

Who can participate?

- We are looking for people who:
 - Are younger than 80 years of age
 - Have been diagnosed with or are strongly suspected of having bvFTD
 - Are willing and able to participate and to attend study visits.
 - Have a family member, friend, or caregiver willing to attend study visits and describe for the physician how the patient is managing daily activities, which will enable the study physician to evaluate how the investigational study drug is working.

For an appointment or questions call: **732.379.7768**
